# ENGINEERING SECOND SKIN

# ESSENTIAL MANUFACTURING GUIDE

The CE Approved Garments, Protector Armors and Gloves are manufacturer's declaration that the product meets the requirements of the applicable EC directives. Officially, "CE" is an abbreviation of *Conformité Européenne*, meaning "European Conformity". ATROX is following all CE standards, while manufacturing Moto gear. We are also using CE approved Protectors by RICOTEST Italy in moto gear.

MaxTec fabric is a high quality polyamide fabric made of cut and repeated verponnen fibers. In his slightly textured, natural woven look, it is comfortable to wear and is significantly better than other nylon materials. In this extreme wear and anti-friction material, there are different Mabe of yarn strong, known under the abbreviation (Delner). ATROX processed only MaxTec with a Quality of at least 500-D, 600-D and 1000-D, thus bringing the safety standard at a very high level. The highest thread Strong, 1000-D MaxTec is used mainly to falling bodies.

Cowhide is used for overused clothing and accessories. It is extremely abrasion resistant. Natural process on cowhide skin refers to particularly soft-leather. Some of Garments, Gloves proceed with Kangaroo leather, which extreme wear and abrasion resistant. But is ultra-light and soft.

Soft Shells offer a comfortable and soft-touch fit for bikers. It's Breathable, Waterproof and Windproof. They are also highly breathability, elastic, soft and freedom of movement. Soft Shells are ideal with sublimations in garments, gloves and as removable inner jackets and functional jackets.

Reissa® is a functional fabric with breathable membrane with high sensitivity concerning weather conditions. It is an advanced textile with a highly developed specific polyurethane resin coating or membrane. This technology creates an extremely thin waterproof coating or membrane that is light weight for wearing comfort but extremely durable. It is highly resistant to rain, wind and snow while maintaining breathability. It is very flexible and has a comfortable soft touch. ATROX is using it in many of their textile jackets.

PD Fabric is used in lining. It is scratch and abrasion resistant, and lighter than natural silk. ATROX used own PD fabric designs with branding as per customers' demands.

At night and darkness Reflective material improve the visibility of motorcyclists considerably. Reflective materials have an offense, ultra-wide angle Ruck beam system of catadioptric glass beads.

Dublin fabric is a high-tech material from strongly entwined polyamide yarn. The material is very abrasion resistant and has a low Wear on. It is created especially for extreme weather conditions and a harsh environment. Is used primarily as reinforcement before on elbows, shoulders and knees.

Rip-Stop fabric offers Rain Wears that is Breathable, Water-proof and Wind-proof fit for bikers by ATROX. They are also highly breathable, soft and freedom of movement.

Polyamide is a fully strong strength level of fabric. He is extreme wear and abrasion resistant and hardly absorbs moisture. Especially ATROX puts on jackets and trousers from 420-D with 900-D Dobby for reinforcements.

Denim is the original jeans stuff from smooth cotton fabric. Cotton is soft, but also very stable, soft, and comfortable to wear. ATROX jeans will only high-quality and more resistant denim weighing 11.5 - 12 oused. Reinforced warden ATROX jeans with Du-pont Kevlar-Material.

The DuPont KEVLAR material combined with strong weight. KEVLAR is as extreme abrasion and reiblaste material is five times stronger than steel at the same weight. Thus, the use of KEVLAR is ideal for motorcycle clothing and is used mainly to falling bodies as reinforcement. Therefore KEVLAR is also used as a heat shield on the calf of Textihosen

## CE TEXTILE JACKET

Motorcycle Textile jackets are light-weight & color-full protection gear for all kinds of riding. The trendiest safety garment. In field soldiers, civil helpers, crisis interveners, emergency officers need protective coverings on their vulnerable parts during their jobs. Field jackets are particularly contemplated by light or medium-weight waterproof coated cotton. Unique colors, designs, comfortable fabric and your protection are our goals.

TECHNOLOGY

## AIR-BAG TEXTILE JACKET & VEST

Fashion vs. Safety? No more! Both are now presented at the same time with a Single Product called Motorcycle Air-Bag Textile Jackets. The stylish Motorcycle Jacket along with the safest Air bag is specially designed for Motorcycle Riders that is already tested and adopted worldwide. This passive safety device, air bag consists of a tubular air-chamber fitted in an ordinary jacket. It is developed to achieve significantly faster inflation times, Improve dressing comfort and easiness of use. The device focuses the most part of the volume disposed around the neck and along the limber spine as these are the principle body parts it's intended to protect. The CO<sub>2</sub> is stored in the cylinder at ambient temperature and very high pressure so it is at liquid state.

TECHNOLOGY

## TEXTILE HEATED JACKET & VEST

### POWERFUL HEATING ELEMENTS

The low, medium, and high settings on our heated jackets allow you to adapt to the environment and stay heated throughout your day.

### LAYERS OF QUALITY

The ATROX heated jackets are made from high quality and durable fabrics. The out soft-shell layer is wind resistant, waterproof and breathable while the thermal flace lining adds an extra layer of insulation. Even without the heating elements, our jacket is superior quality

TECHNOLOGY

## CE PROTECTOR ARMORS

Studies state that fear is important for living. But there are categories of people who fight to remove fears & people who want to taste more fear. An adventurous urge, an acrobatic riding leads towards dangerous acts which may lose balance and harm body parts.

### TECHNOLOGY

## CE LEATHER / TEXTILE GLOVES

Hands may not be that much active but controlling the ride and it's an important and vital part of body. "A range of leather and textile, winter and summer gloves are designed as complete package of riding gears, they reduce friction, reduce vibrations which might cause numbness, reduce pressure on ulnar nerve. These gloves are designed to have extra padding at the palms, wrist, and minor joints of phalanges to protect from injury, nerve pressure, and friction, climatic effects like cold and sweating".

- d - Battery Pocket
- e - Anti-Slip Material For More Grip
- f - Special Touch For Smart Phone

## HEATED LEATHER TEXTILE GLOVES

### POWERFUL HEATING ELEMENTS

The low, medium, and high settings on our heated gloves allow you to adapt to the environment and stay heated throughout your day.

### LAYERS OF QUALITY

The ATROX heated gloves are made from high quality leather and durable fabrics. The outer shell layer is wind resistant, waterproof and breathable while the thermal lining adds an extra layer of insulation. Even without the heating elements, our gloves is superior quality. a

TECHNOLOGY

## SHOES

Feet Anatomy states that toes and heel take decisions while biking, riding and motocross racing. Nerves in this part need protection, warmth, less friction and covering to protect injuries as Nerve shocks pass to muscles of tibia and fibula as well. Leather and textile boots are designed to protect these sensitive, micro and vital parts of feet. TPU shin protector, ankle metal protector, TPU heel protector and metal slider below toes are used in structure of boot.
